

SKB Keg Coolers

SKB-6 + SKB-MU

Panel construction

Ideal for all keg sizes

Plug ready machine unit on top or at side (R)

SKB

SKB Keg Coolers

The panel construction of Serrco SKB keg coolers allows installation in narrow spaces like cellars. The keg cooler comes flat packed with a separate plug ready machine unit (SKB-MU). With reinforced bottom and wide front opening, SKB keg coolers have especially been designed to store 20L, 30L and 50L kegs or eventually bottle crates. The Energetic label indicates that the SKB machine unit is environment friendly and energy efficient.

PRODUCT CHARACTERISTICS

- Fan assisted refrigeration for quick cool-down
- Better cooling performance with 35% less energy consumption
- Natural refrigerant
- Electronic thermostat with auto-defrost
- Reinforced bottom plate
- Adjustable feet
- Silver coloured skinplate inside, anthracite coloured skinplate outside
- Exchangeable door seals
- Pre-cut opening for machine-unit
